

P3 Learning Leaflet 2017-2018

Term 1

Numeracy

This term we shall be revising place value to 100 and learning about place value to 1000. We shall introduce adding and subtracting tens and units vertically ('chimney' sums) using the correct layout. We shall also be practising number bonds to 20 and beyond to improve mental recall.

We shall also introduce the 2 and 5 times tables.

In practical Maths we shall be working with time, data handling and properties of shapes.

We shall continue to use strategies from the Big Maths programme.

Literacy

We are revising sounds from P2 this term, following the guidelines of Active Literacy for spelling and phonics. We shall be developing comprehension skills and critical literacy skills using Oxford Reading Tree as our main resource.

We shall continue to extend writing skills using the Big Writing programme to develop vocabulary, particularly the use of adjectives and varied 'openers' (sentence starters)

Health and Wellbeing

This term we shall create our class charter. We shall encourage a positive ethos by the use of our **It's Good to Be Green** strategies and Bounce Back resources. In P.E. we shall use team games to develop ball skills, and a positive and inclusive attitude.

Learning Across the Curriculum

We shall use our topic this term 'At the Zoo' to explore a variety of creatures across the world and how species live alongside each other and interact. We shall also look at the role of zoos in research and conservation.

Weekly Timetable

Monday - Music (change to Tuesday after week 4)

Tuesday - Art, P.E.

Wednesday - Science

Thursday - P.E.

Friday - Assembly, Masterclass
